Drawing to be interpreted with reference to the Arboricultural Assessment & Impact document.

Tree constraints shown are calculated from guidelines contained within BS5837:2012 and dimensions contained within Appendix 1 of the Arboricultural Assessment & Impact document. This outline should not be interpreted as the exact extent of root spread however it is considered the optimal area to be retained free of developmental impacts.

The constraints lines shown on this drawing are a guide only. An on-site assessment should be undertaken in the event of any developments being planned within the areas shown for retained trees.
