PUBLIC NOTICE

MARDYKE BUS TERMINUS

NOTICE UNDER SECTION 38 OF THE ROAD TRAFFIC ACT 1994

Pursuant to the provisions of Section 38 of the Road Traffic Act 1994, Cork City Council hereby gives notice of its intention to carry out the following traffic management measures in the interest of the safety and convenience of road users.

Mardyke Bus Terminus

As part of the rollout of the new improved bus network for Cork, new terminal capacity including lay-over space is needed near the Mardyke to support the introduction of new services 6 and 21 at this location. It is proposed to enhance this provision of public bus services by introducing one new and one re-located bus stop/stand on N22 Mardyke Walk.

The main elements of the proposed works are:

- Relocation of the existing bus stop slightly east and provision of a new bus stand west of this location, widening of the existing bus lane to allow buses to pass the stop/stand when occupied by a bus.
- Removal of existing parking bays on the southern side of the road to accommodate general traffic lanes.
- Removal of kerb build-out on the southern side of the road and introduction of kerb build-out on the northern side of the road to suit lane alignments.
- Renewal/replacement of other road drainage, road signage and road markings as might be necessary.
- All other associated ancillary site works.

In accordance with the Habitats Directive, an Appropriate Assessment (AA) Screening has been carried out for the project, in relation to any potential impacts upon any Natura 2000 sites, including the Cork Harbour SPA (004030), the Great Island Channel SAC (001058), the Blackwater River (Cork/Waterford) SAC (002170) and The Gearagh SAC (000108). The findings of the AA screening concluded that no significant effects on any Natura 2000 sites are likely and it was not necessary to undertake any further stage of the Appropriate Assessment process.

In addition, the proposed project has been screened to determine whether an Environmental Impact Assessment (EIA) is required and it has been concluded that the proposed development would not be likely to have a significant effect on the environment and that the preparation and submission of an environmental impact report is not therefore required.

Details of the proposed works including an Appropriate Assessment screening report and Environmental Impact Assessment screening report are available for inspection online at <https://consult.corkcity.ie>, at Reception Desk, Cork City Council, City Hall, Anglesea Street, Cork on working days from Friday 27th October 2023 to Friday 15th December 2023 between 10.00 a.m. and 4.00 p.m.

Any observations in relation to this proposal should be made electronically through <https://consult.corkcity.ie/en/> or forwarded in an envelope marked "Mardyke Bus Terminus" to Senior Engineer, Infrastructure Development, City Hall, Anglesea Street, Cork. The final date for submissions is 5.00 p.m. on Friday 15th December 2023.

All comments, including names and addresses of those making submissions and observations, submitted to Cork City Council in regard to this proposal, will form part of the statutorily required report to be presented at the monthly meeting of Cork City Council. Accordingly, they will be included in the minutes of that meeting and may appear in the public domain. Cork City Council will retain data for no longer than is necessary and in accordance with the Council's Retention Policy and relevant Data Protection legislation.

Dated 27th October 2023
