## Objection to Cycle Lane in Glen Park

**Caibidil:** Volume 1 - Written Statement» 6. Green and Blue Infrastructure, Open Space and

...

**Ábhair:** Active recreation and open space, Green and Blue Infrastructure

Myself and my family have lived by the Glen park for 15 years and go there every day . We wish to object to the idea of a cycle lane in the park ,we believe it would be dangerous for the little kids. A vast majority of people now have battery operated bicycles that can travel at tremendous speed. There is no space to put an ample cycle lane, without excavation and removal of trees and terrace ing the entire Glen. Being a valley there is very little space to work with. The biggest issue for all the residents surrendering the Glen, is road safety as you enter the park. There are no traffic lights or zebra crossings. So slow signs or digital speedometer on the ballyhooly road . Each day families take their life in there hands and run across that road as trucks Wizz by at tremendous speed. It is a serious health and safety concern and needs to be addressed long before anything else is done to make the Glen park a more attractive place to visit.
