Comhairliúchán:

Draft Cork City Development Plan 2022-2028

Dáta a cuireadh isteach: 28.09.2021 - 21:36

In the interest of an age friendly, child friendly and family friendly Sustainable Community

Caibidil: Volume 1 - Written Statement» 3. Delivering Homes and
Communities

Ábhair: Delivering homes and sustainable
neighbourhoods

For the CDP to be relevant and effective to many of the residents in the South West and South Central Wards, it must show clear strategies and address the concerns of the permanent residential community. Having read through the Draft Plan, we see initiatives to regenerate areas, but nothing specific to support, sustain and stop the decline of existing struggling neighbourhoods. It appears to be full of sideline strategies but with very little commitment to this area.
