Draft Cork City Development Plan 2022-2028

Objective 3.1 Planning for sustainable Neighbourhoods - Social Infrastructure

Caibidil: Volume 1 - Written Statement» 3. Delivering Homes and Communities

Ábhair: Delivering homes and sustainable neighbourhoods

All housing developments outside the city area need to have schools, shops, adult education centres, allotments, creches and playgrounds built in from the planning stage. This is the minimum infrastructure necessary for the local community to develop cohesively from the start. Sufficient land must be allocated specifically for their planned development.
