See attached submission

Eochairfhocail: Lee
rezoning, Road

Príomh-thuairim:

The recent extension of the jurisdiction of the City Council has provided the opportunity to review the current boundary between the Metropolitan Green Belt and the development zones within the City environs.

Príomh-iarratais:

We therefore request that the site be rezoned in accordance with the the proposed re-zoning map in Fig 2 of the submission

Main reasons:

The capacity of the site to accommodate a sustainable development of 137 units has been demonstrated by the Village Concept Masterplan prepared by Reddy

Architecture and Urbanism and by the Public Transport Strategy prepared by MHL.
