Lee 2 Sea Walking and Cycling Route

Caibidil: Volume 1 - Written Statement» 4. Transport and
Mobility

Ábhair: Cycle
Pedestrians, network

I think the Lee 2 Sea route should be a core objective of policy for cycling and walking through the city and should be funded and promoted. It should link with other walking and cycling routes and Greenways. The Lee2Sea route is an iconic symbol of the new thinking about our public spaces and our rediscovery of our local neighbourhoods.
