Lee to Sea Greenway

Caibidil: Volume 1 - Written Statement» 4. Transport and
Mobility

Ábhair: Cycle
network

The Lee to Sea Greenway has a great potential for local transport(commute and leisure) and as a tourist attraction.

With the increasing cycling network, we will attract more active travel tourists from Europe whomay come by ferry to Ringaskiddy and join the Greenway. I have experienced this in the other direction when I was able to cycle from Cork City to Ringaskiddy and sailed from Cork to Roscoff where I had access to hundreds of km's of greenways.

Príomh-iarratais:

The Lee to Sea Greenway should be included as an objective in the Core Strategy (Chapter 2).

The Lee to Sea Greenway should be added as a specific objective in Chapter 4 (Transport), with a plan for route selection, funding and implementation to be carried out in the short term.
