MOS overview comment 01

Caibidil: Volume 1 - Written Statement» 3. Delivering Homes and Communities

Ábhair: Delivering homes and sustainable neighbourhoods

Ref: Chapter 3: Delivering Homes and Communities I am very disappointed with national housing policy and CCC housing policy. In particular the amount of acceptable dereliction in public and private property. I hope this is changing. I also think the HAP scheme needs complete reform as there are not enough inspections happening and the model delivers very little long term for the investment. The scheme seems to benefit landlords only.
