**Comhairliúchán:**

Draft Cork City Development Plan 2022-2028

---

## Cycling targets

**Caibidil:** Volume 1 - Written Statement» 4. Transport and  
Mobility

**Ábhair:** Sustainable transport  
targets

Based on work by the Cory Cycling Campaign I believe the target of 4% is inappropriate and should not be referenced in the City Development Plan. A more ambitious target for mode share of between 13% and 20% by 2028 is achievable, based on the current growth trajectory based on Cork Cycling Campaign figures.
