Recommendation to include reference to 'Waste Management Infrastructure - Guidance for Siting Waste Management Facilities'

Caibidil: Volume 1 - Written Statement» 9. Environmental Infrastructure

Ábhair: Waste Management

The upcoming *National Waste Management Plan for a Circular Economy* (NWMPCE), which is likely to be made in early 2022, will replace the *Southern Region Waste Management Plan 2015-2021* and the regional waste management plans for the other two regions. The NWMPCE will include the new guidance document *Waste Management Infrastructure – Guidance for Siting Waste Management Facilities*, the scope of which includes broad siting criteria and facility specific guidance for consideration when siting a waste facility. We recommend that reference to this new guidance document be made within *Chapter 9 Environmental Infrastructure*, in particular within the section relating to Waste Management.
