I want the council to hear how strongly I along with most in Hollymount object to the rezoning of hinterland on the Lee Road. To keep this brief. The surrounding area does not have the infrastructure to cope with additional traffic. The wildlife in the area will suffer due to even more car/noise/light pollution. Rezoning the area seems to be purely for financial gain if anything the hinterland should be expanded with even more trees planted to cope with the air pollution generated by traffic/industry in Cork. A lot mentioned in the submission seem not to be valid and should be re-reviewed.
