Site analysis

Constraints / Opportunities

- Peak hours traffic
- Footpath quality
- Street crossing quality
- Roundabout legibility
- Bus stop localisation
- Bridge visibility

- Green connection
- Urban core
- Close to the countryside

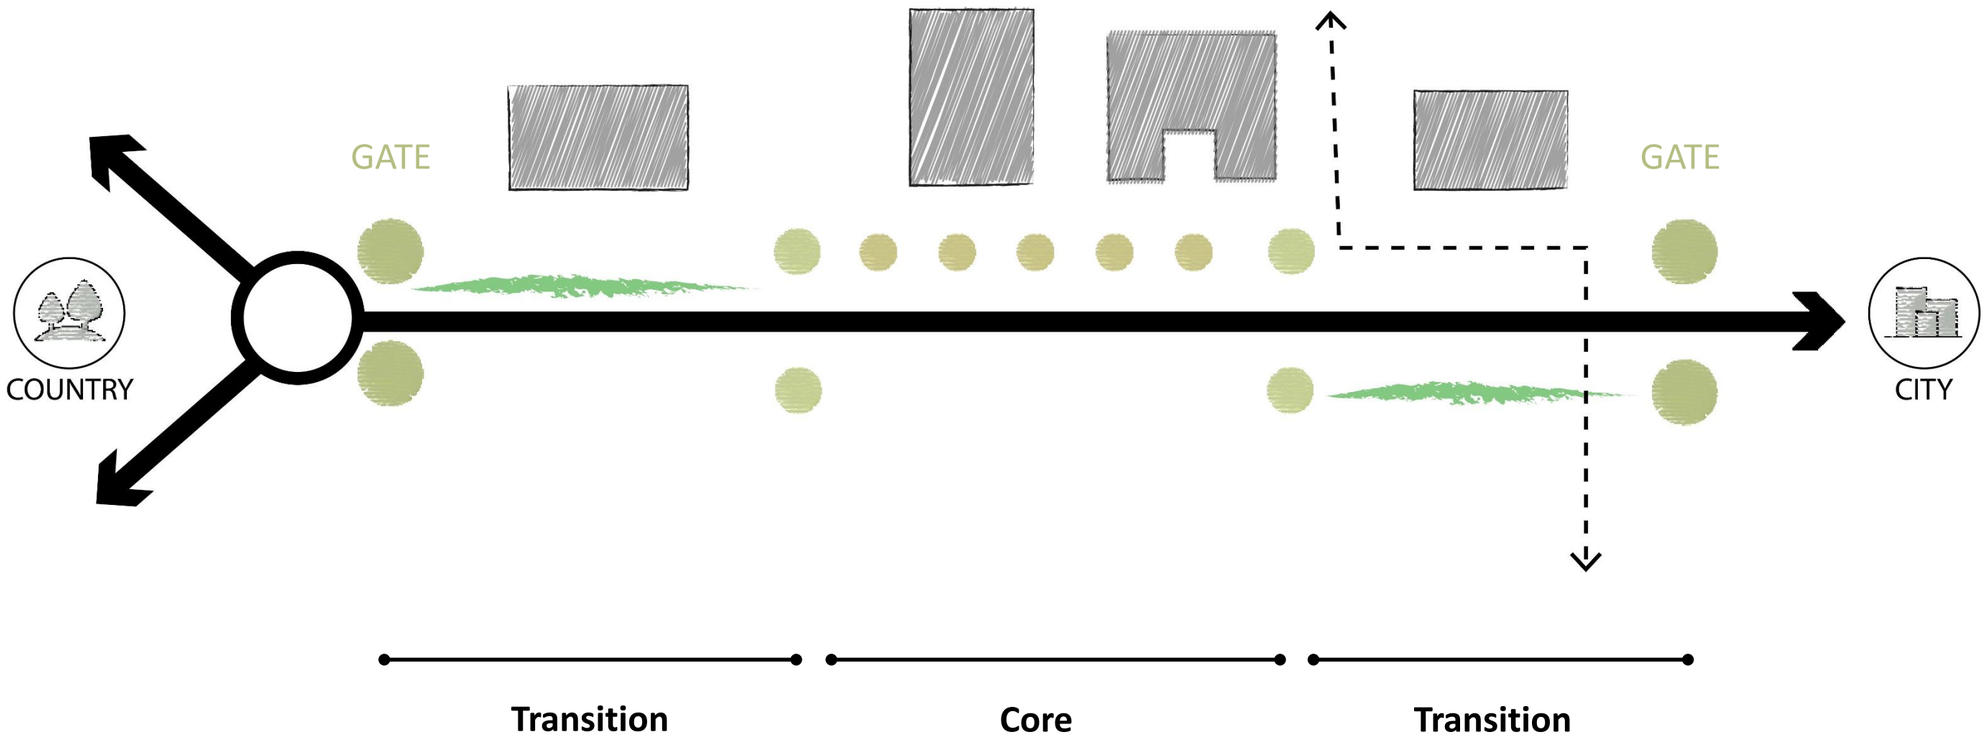
Actions to provide a more attractive and safe place for vulnerable road users

Enlarging footpaths

Providing a clear landscape strategy

Reducing speed of vehicles

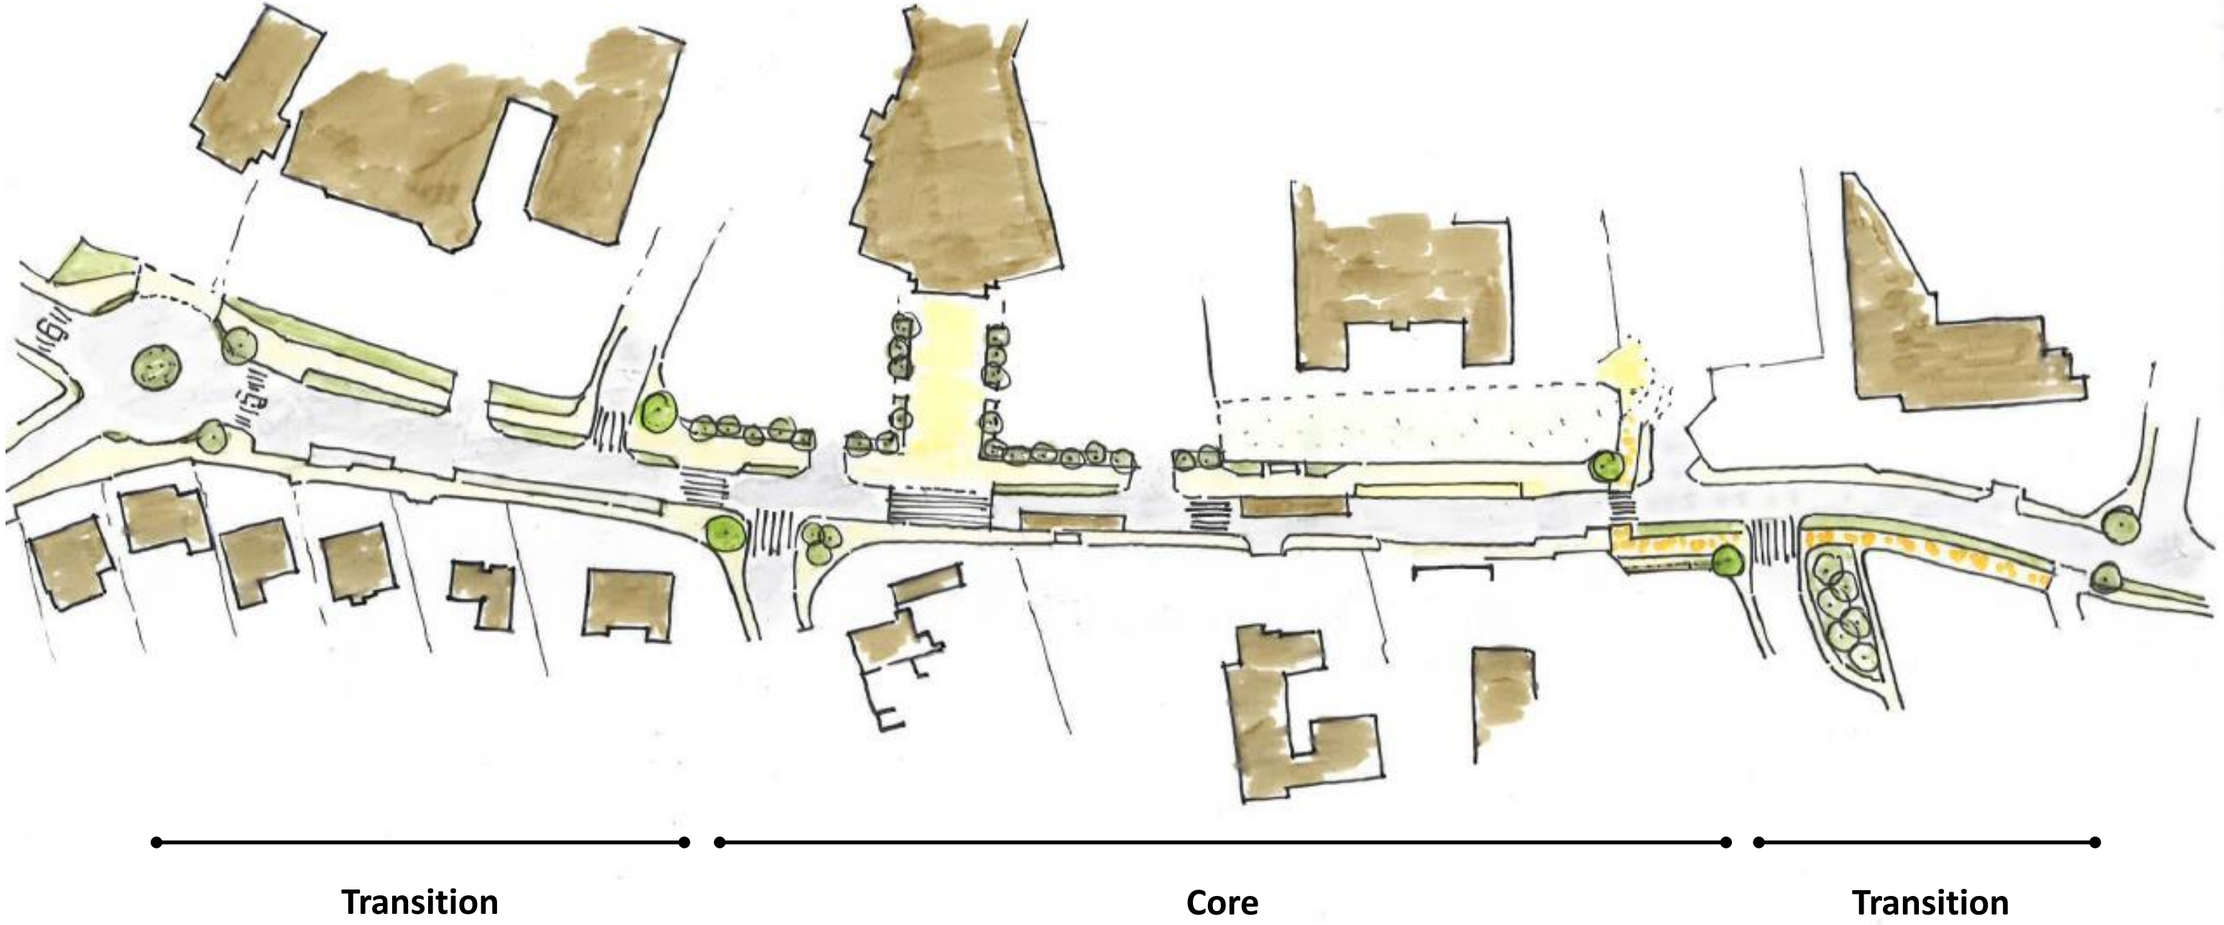
Streetscape strategy



3

Streetscape layout

Landscape design



Soft landscape

Herbaceous ornamental Plants

Gate entrance – mixed vegetation and sculpture

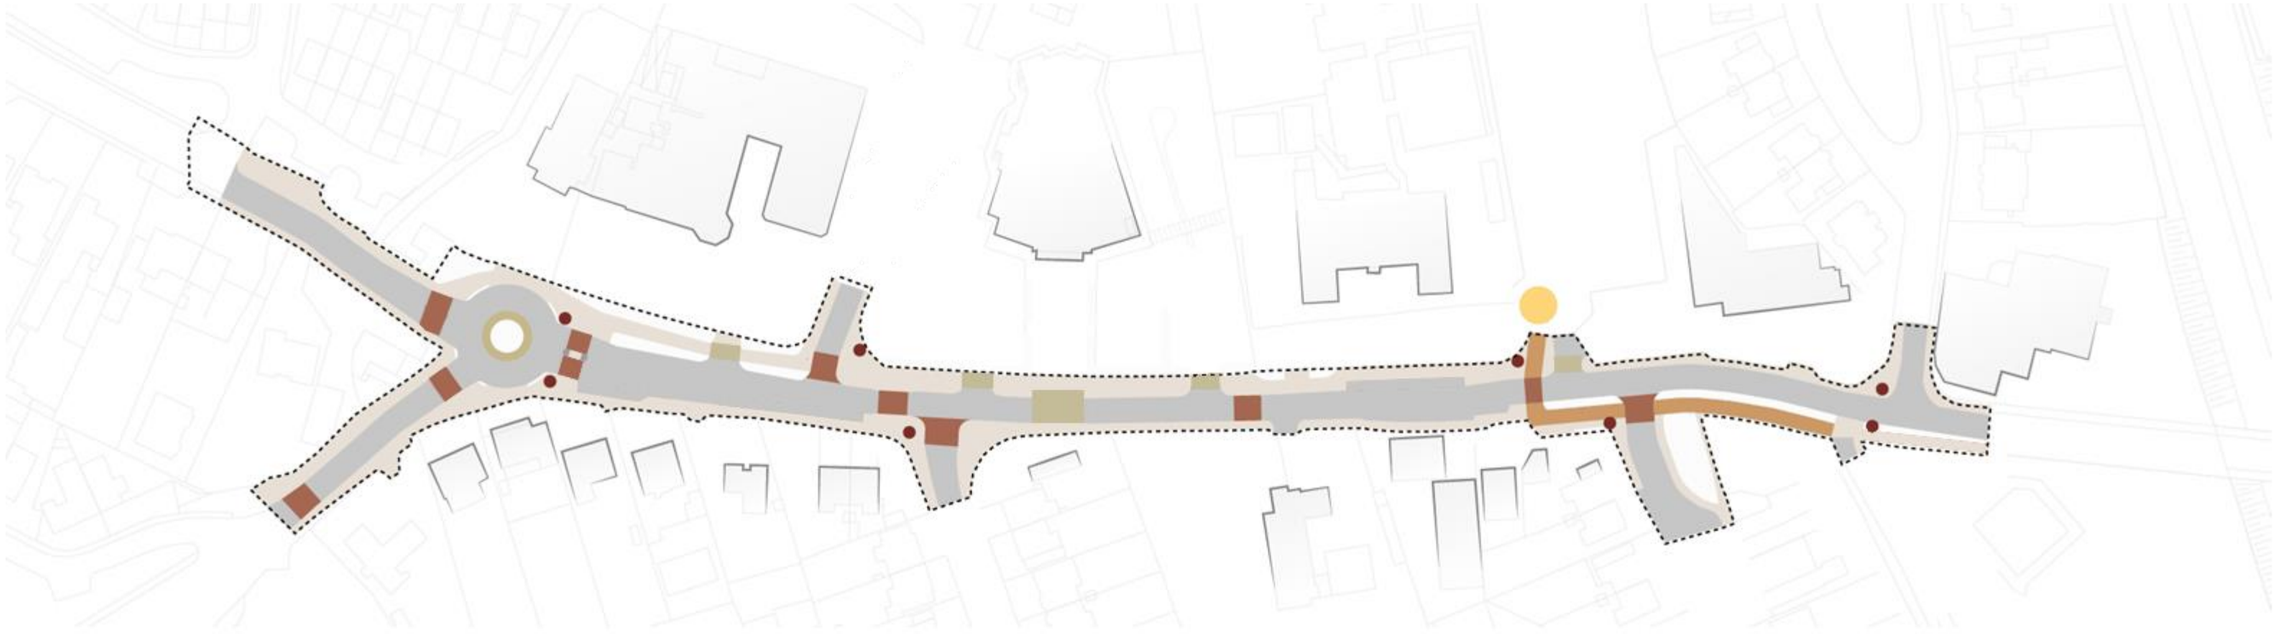
Gate trees

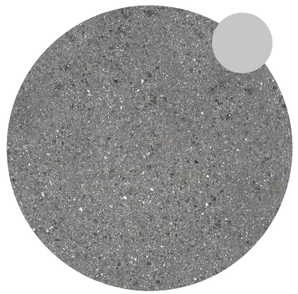
Landmark trees

Existing species – birch «grove»

Lower planting strip

Hard landscape



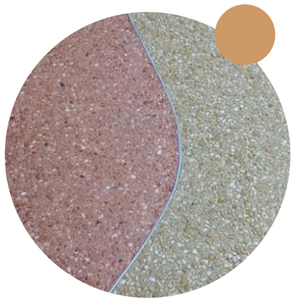


Asphalt Roadway

Concrete Block
Paved Crossings

High Quality
Concrete Footpath

Raised
street crossings



Coloured Levofloor or similar,
effect «exposed gravel»

Coloured asphalt –
School focus

Tree grates –
Circle shape
